

science&technology services

Services include a pre-qualified pool of professional consulting firms available on a work order basis to assist District staff in scientific and technology services necessary to achieve the District's strategic goals and objectives

When: Thursday, March 9, 2006
(1- 4 PM)

Where: B-1 Auditorium

You are cordially invited to the Science & Technology Services Contract “Meet and Greet”

The District's Procurement and Environmental Resource Assessment Departments are hosting a Meet and Greet for all firms having Science & Technology Services (STS) contracts with the SFWMD.

Purpose:

To give STS contractors the opportunity to better acquaint themselves with District Project Managers, and to provide information on their experience and expertise.

Who should attend: District Project Managers planning to contract services in the following disciplines:

Hydrology & Hydraulics • Water Resources Evaluation • Water Quality Monitoring & Assessment
Biological/Ecological Monitoring & Assessments • Chemistry/Laboratory Operations
Quality Assurance/Quality Control & Data Verification • Modeling Support • Special Programming
GIS/Remote Sensing • Wildlife Consultation
